BLOOMBERG VAULT'S COMPLETE SOLUTION >>>>>>>>

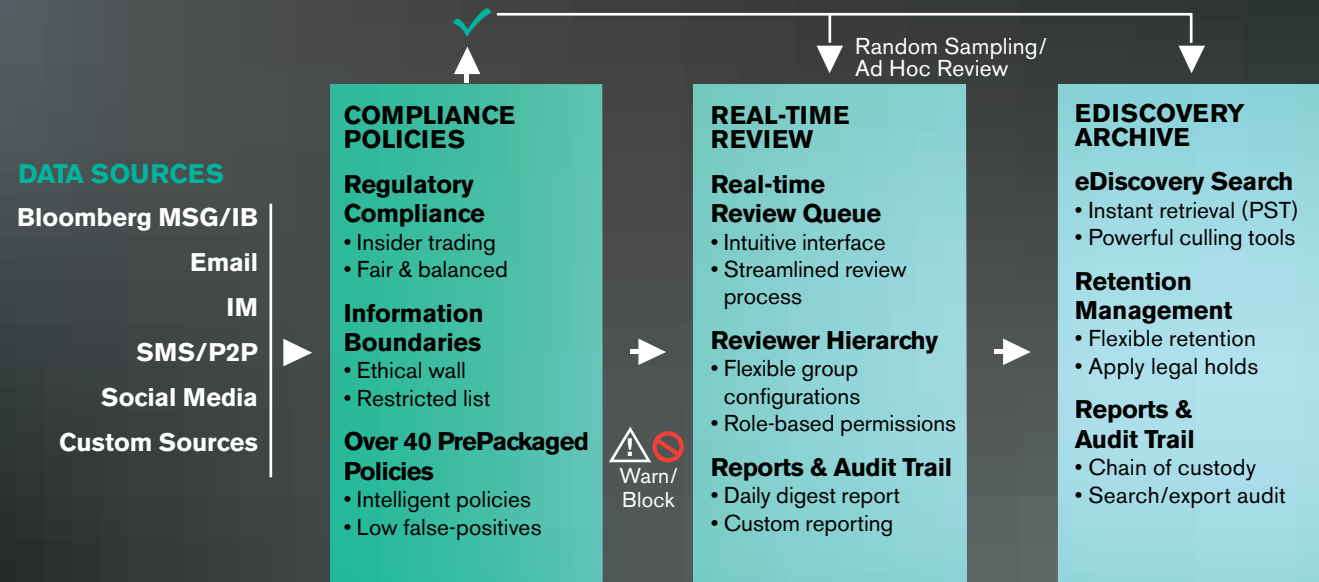

ACCESS THE POWER OF TRUST, INNOVATION AND PARTNERSHIP

Bloomberg Vault is backed by the reliability and scalability of the world's largest private network. It is built on our deep domain expertise in electronic messaging, which encompasses more than 220 million daily messages

and 65 billion archived messages. The system is designed around disaster recovery, high availability and robust security to exceed the expectations of our most demanding clients.

SAVE TIME AND MONEY WHILE LOWERING YOUR REGULATORY RISK

End-to-End Information Governance

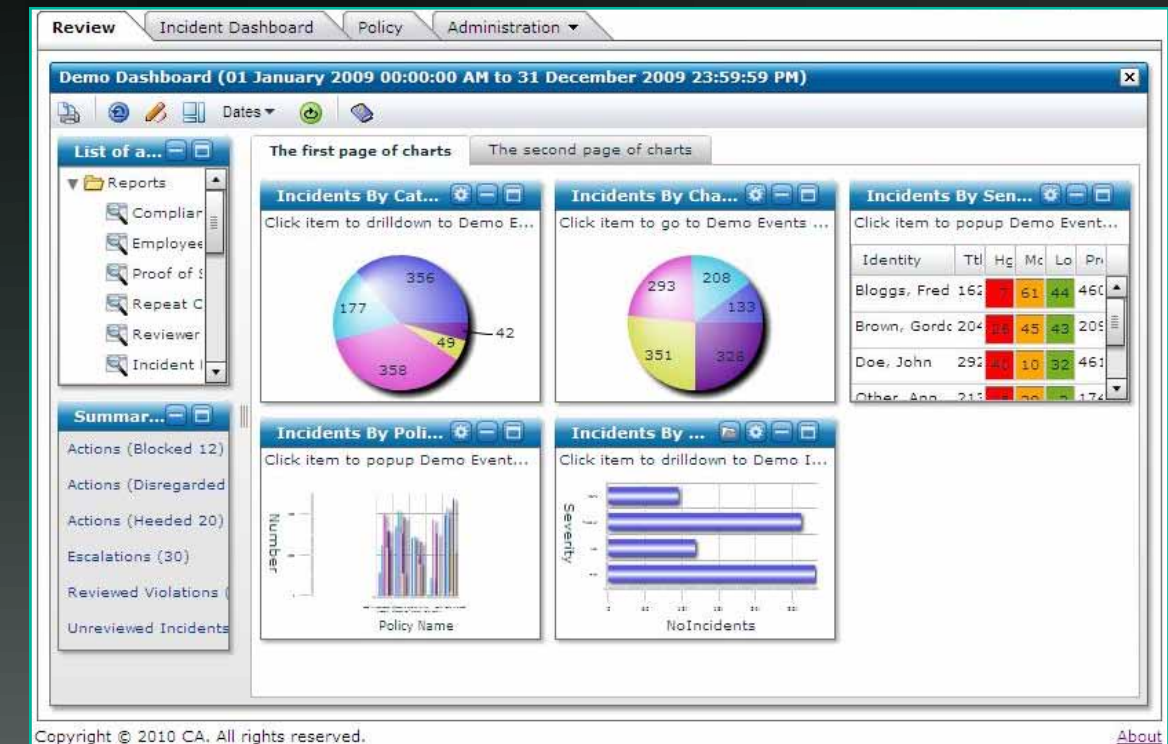

STAY A STEP AHEAD OF YOUR CHALLENGES

Bloomberg has made delivering uninterrupted uptime and ironclad data security one of our core competencies. Multi-factor biometric security ensures the integrity and confidentiality of your information. Data is archived with multiple layers of redundancy in a highly secure environment with multiple data centers running hot-hot for guaranteed disaster recovery. Ultimately, it means your firm gets a complete and reliable solution that meets stringent legal and regulatory requirements.

POWERFUL ANALYTICS MAKE CLOUD-BASED INFORMATION AN ASSET

Bloomberg Vault can help CTOs and CIOs drive cost savings by streamlining processes and improving risk management and compliance. Your firm benefits by moving its compliance, eDiscovery, and long-term archiving to Bloomberg Vault's unified, scalable and high-service cloud-based environment. Bloomberg's powerful analytics allow your firm to gain insight into your consolidated archive through powerful visualizations and dashboards that offer the ability to correlate many data sources in a single view and proactively detect patterns.

WHY BLOOMBERG VAULT NOW //

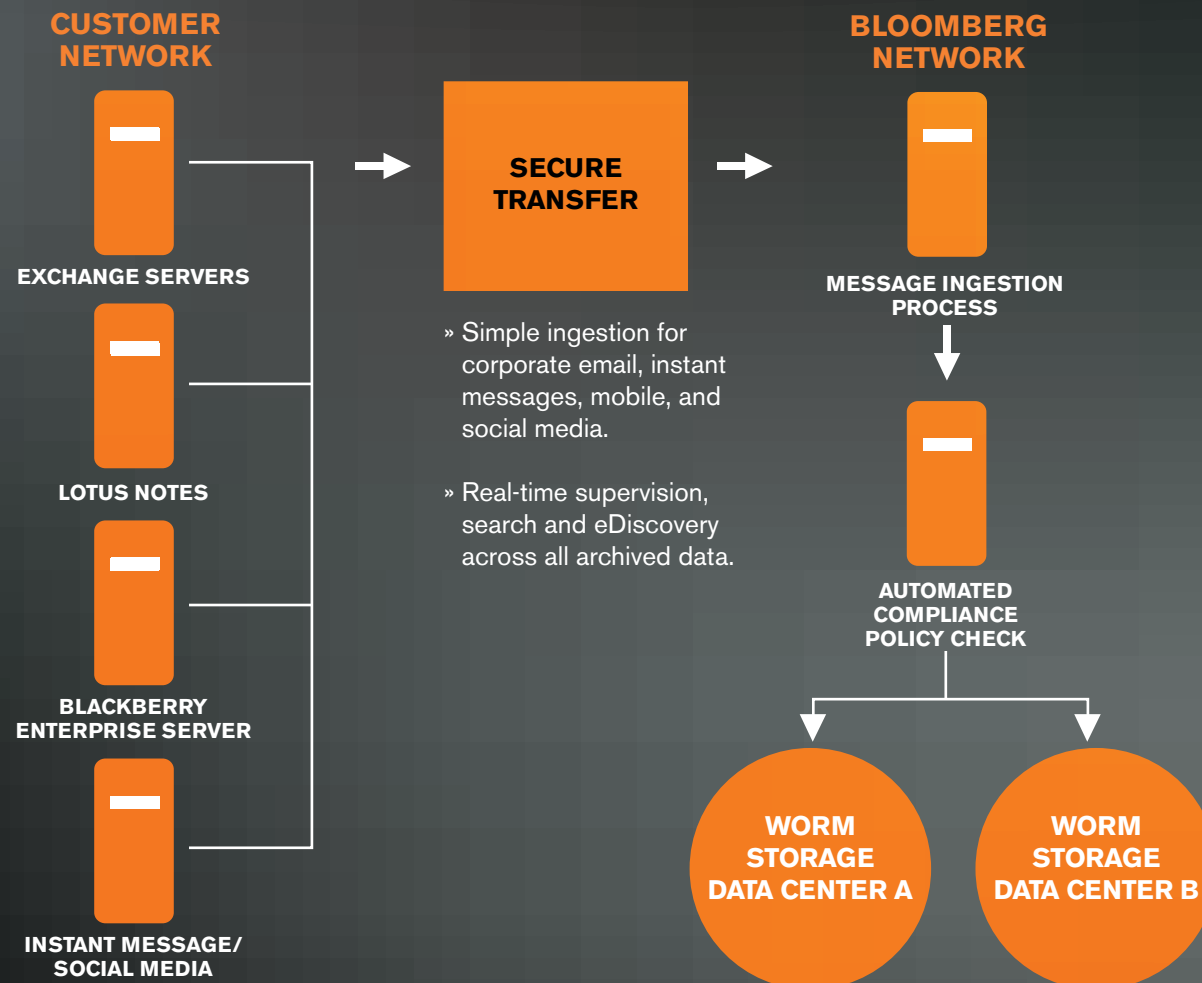

The financial services industry is dealing with a fluid and evolving legal and regulatory landscape. Huge data volumes make compliance and eDiscovery responses complex, while consequences for noncompliance can be substantial.

Our scalable system gives your firm a unified archiving solution in the cloud for all corporate e-mail, instant messages, mobile, social media and Bloomberg messages—all on a single platform. This simplifies

compliance review workflows and speeds your eDiscovery processes. In addition, Bloomberg Vault is compliant with SEC and FINRA guidelines, allowing Bloomberg to issue attestation letters to the regulators on your behalf. Together, that allows you to:

- » Reduce operational overhead and capital costs
- » Access powerful search and analytics
- » Streamline legal and regulatory investigations

THE STRONG CASE FOR COMPLIANCE IN THE CLOUD>>>>

CUSTOMERS ACROSS THE FINANCIAL SERVICES INDUSTRY ARE ADOPTING BLOOMBERG VAULT

Bloomberg Vault helps solve your business-critical information management needs in a way that helps the bottom line. Bloomberg Vault lets you reduce labor costs, storage and hardware spend, data center costs as well as software licensing costs.

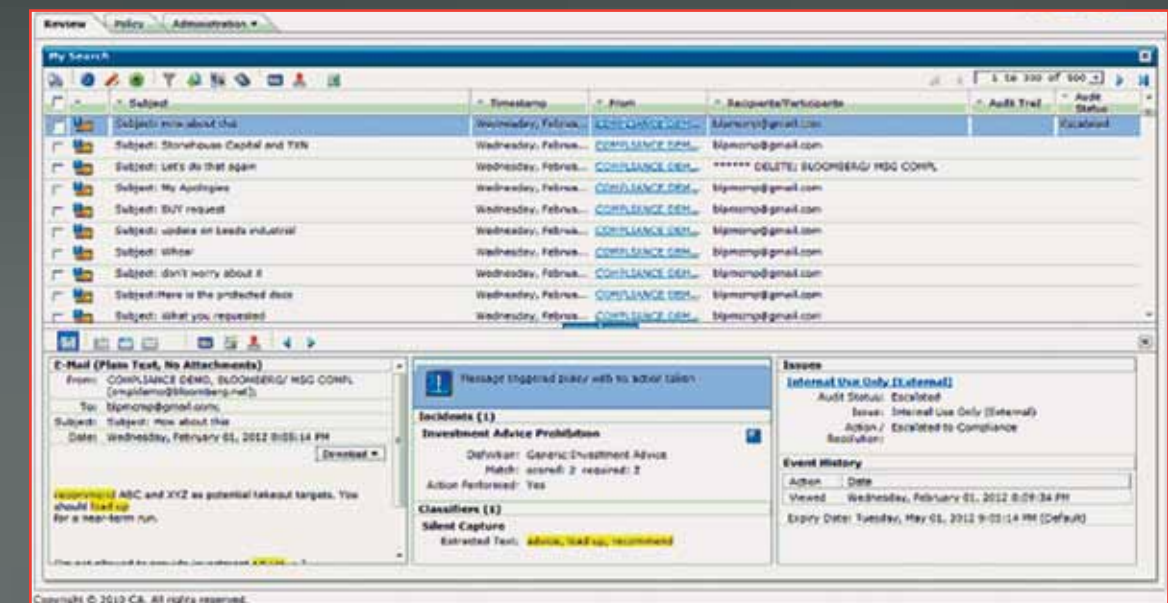

We know that real-time access and analytics on your information are just as important as archiving it securely. So we've added powerful search and analytics tools that get you the data you're looking for—in real time.

Simple administration and user-management tools help you quickly adopt Bloomberg Vault; global customer support is available every day of the year, around the clock with experts in every region. Transparent and cost-effective pricing helps make the economic benefits to your company exceptionally clear.

WIDE-RANGING OFFERINGS

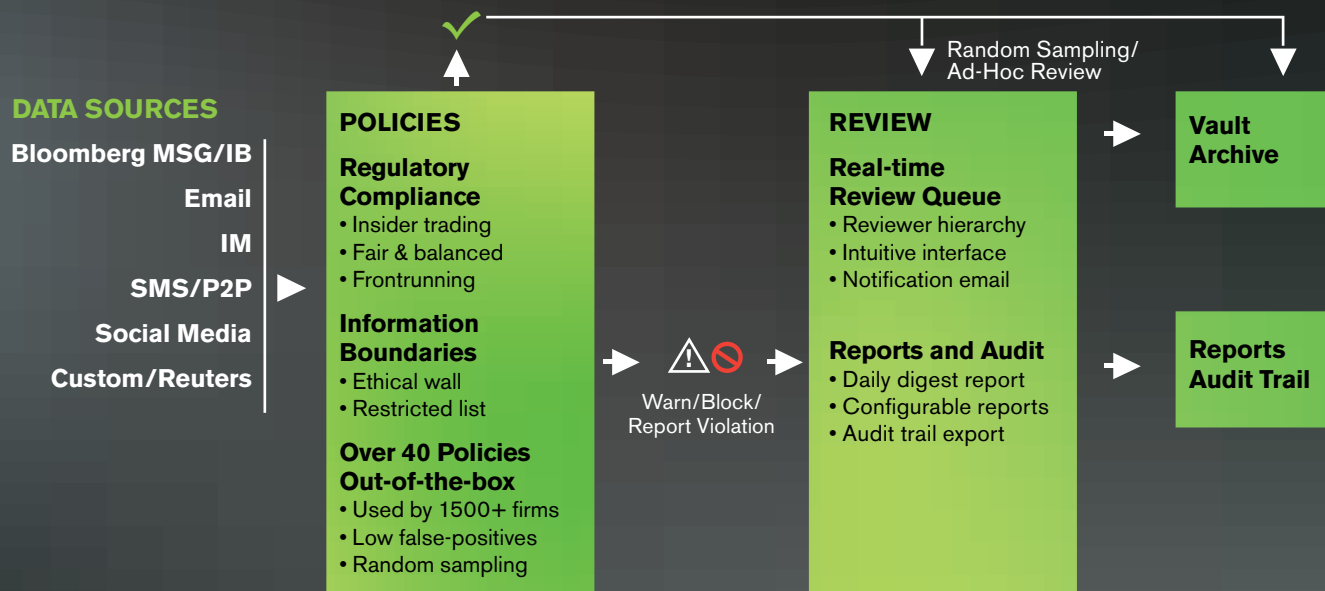

Bloomberg Vault brings extensive solutions to lower your regulatory risk and reduce your compliance costs. We deliver your consolidated enterprise archive on write-once-read-many (WORM) storage with geographically dispersed data centers running hot-hot, instant search and flexible retention management with legal hold capabilities implemented at the firm, group or individual-user level.

And, all access is authenticated with the B-Unit, an industry-first three-factor biometric authentication tool for more secure access than anyone else in the industry. So, you'll know with certainty exactly who has been interacting with archived information.

Bloomberg Vault Compliance

ROBUST AND CONSOLIDATED SOLUTION

To support all your content sources, CIOs and CTOs require global solutions that support all regulated information. Bloomberg Vault meets this requirement by supporting all enterprise messaging, including Microsoft® Exchange, IBM® Lotus Notes®, instant messaging, Bloomberg messaging, mobile/SMS messaging, social media communications and other proprietary financial services messaging systems.

Your end users can access powerful full-text search functionality to support eDiscovery workflows, including responsive filter and retrieval tools, through an intuitive interface. Easily review and quickly download messages from all data sources in multiple export formats, including Microsoft PST, Lotus Notes NSF, XML and text, to streamline your investigations.

Bloomberg Vault's integrated real-time policy management console comes with more than 40 preconfigured and customizable rules that allow Compliance users to monitor, review, sample and report on potential violations across all communications types. Dashboards and reporting capabilities offer your managers insight and transparency into your compliance processes.

KEEPING ON TOP OF THOUGHT LEADERSHIP

Bloomberg Vault includes compliance newsletters, regulatory insight, and alerts from our award-winning news organization, Bloomberg Law (BLAW) and The Bureau of National Affairs (Bloomberg BNA). Clients can also subscribe to our cost-free, proprietary newsletters on Risk, Compliance and eDiscovery.

CIOs and CTOs appreciate Bloomberg Vault's smooth integration with existing infrastructure and powerful economic benefits. Legal, risk and compliance professionals rely on the secure platform to consolidate compliance & eDiscovery processes, search and retention management into a single system.
